&

Italian Chamber of Commerce and Industry in Australia inc.

The Italian Chamber of Commerce and Industry in Australia inc. is an association of companies and entrepreneurs with the objective of promoting trade and commerce between Italy and New South Wales and, more widely with Australia. The Chamber in Sydney is the oldest and largest Italian Chamber of Commerce in Australia and part of a worldwide network of similar organisations located both in Italy and internationally. We regularly organise Forums for our members with high-profile speakers.

&

SmartSat CRC

The SmartSat CRC is a consortium of industry and research organisations with the purpose of creating leapfrogging technologies in advanced telecommunications and smart satellite systems to build Australia's space infrastructure for advanced communications and connectivity, remote sensing and real-time connectivity, surveillance and sensing capability over land and sea, earth observation data to monitor climate and development, and the power to drive industry innovation and the growth of the Internet of Things.

It brings together nearly 100 partners and international collaborators which, together with significant investment by the Australian Federal Government, have committed \$245 million, represents the biggest space industry R&D collaboration in Australia's history.
