

President Alberto Milani: the Chamber of Commerce and new opportunities for Made in Italy with Piazza Italia and Palazzo Italia in NY

A dear greeting from New York also on behalf of our Canada-United States-Mexico area.

Let's start again together with the promotion of major sporting events, cinema, the territory and, above all, Veneto's excellence.

Today we have a new tool, it is called Piazza Italia, it is a digital chamber platform system that operates as an ecosystem to give support to your activities abroad. Participate with confidence in this project through your Piazza Italia chambers, because the chambers are the expression of entrepreneurs like me, like you, who know the territory, the opportunities and also the critical issues.

I thank President Mario Pozza, the Veneto system for this great opportunity. A warm embrace from New York to Venice.
